

ACCESS YOUR DATA FROM ANYWHERE

PAST PERFECT WEB EDITION

PastPerfect Web Edition is the affordable, web-based software solution for organizations looking for a hosted collection and contact management software in one package. Work from your desk, inside a gallery, at an offsite storage location, or anywhere else that has internet access using your computer or tablet.

PastPerfect is the most widely used museum collection management software, with thousands of organizations using it worldwide. First released in 1998, PastPerfect has transformed how museums of all sizes catalog collections and manage relationships with members and donors. With Web Edition, you now have the convenience of accessing and managing your data online.

Collection Management

Web Edition has numerous tools to manage your collection with ease, including accessions, loans, exhibits, and more. From archival, art, and archaeology to historic, ethnographic, and photographic collections, Web Edition is designed to manage all types and sizes of collections.

Multimedia

Easily identify items and reduce handling by attaching images of your artifacts to their catalog records. Further enrich your records by attaching audio or video files, PDFs, website links, and more. Multimedia files can be attached to all record types in Web Edition.

Users & Security

Ensure the integrity and security of your data through password-protected user logins and user-level restrictions. Control access to specific features and functions throughout the software by setting up Roles & Restrictions for your users.

New Technologies

Based on Microsoft SQL Server and a variety of cloud and web technologies, Web Edition offers users the ability to manage their collections and contacts using only a web browser. No need to worry about installing software or maintaining in-house servers.

Contact Management

Track volunteers, donors, and members, and organize fund raising activities and campaigns with Web Edition. Post donations, print thank you letters, manage pledges, and record in-kind gifts. Send emails, produce mailings, and print letters and labels with built-in tools.

Searching

Find your records easily using Quick Search, Keyword Search, and Queries. Customize your query output fields, save results to Custom Views, perform actions, and print or export to CSV. You can also group, organize, and manage your records with Catalog or Contact Lists.

Public Access

Expand the reach of your organization by sharing your collection records with the public. Only the records, data, and images you choose are shared in a searchable database for web visitors. Changes made to your site settings or records are available instantly.

Automatic Updates & Backups

Each night an automatic backup of your data is created and stored in Amazon Web Services. Updates are pushed out automatically, ensuring that you are using the latest revision of the software as soon as it is available.

Annual Hosting, Maintenance, & Support

With PastPerfect Web Edition, you pay a low, annual fee for the hosting of your data and images, based on the number of users and the amount of storage space needed. All maintenance and updates to the software are included with your annual fee, along with technical support. When questions arise, our friendly staff of museum and technical professionals will be here to help. Our staff is dedicated to serving the museum community and thrives on assisting our clients.

Pricing

AASLH prices are shown below and reflect a 20% discount. Existing PastPerfect users receive substantial discounts on one-time setup fees. Public Access is an additional cost.

STARTER \$596/YEAR

Data Migration and Conversions

For PastPerfect 5.0 users, built-in export and import tools transfer your Version 5 data and images into PastPerfect Web Edition, preserving the hard work you have done in the past.

Migrating data from other programs can be intimidating, but our staff makes the transition seamless. We can convert records from a variety of electronic formats. Contact us for a free quote.

Training

With free and low-cost options, PastPerfect training helps you get the most out of your new software. Choose the options that fit your budget and learning style. Free online resources include video tech tips, a knowledge base, and a digital user guide.
