

Export GiftMaker Pro data to ASCII text format:

1. Close GiftMaker Pro on all other computers.
2. Open GiftMaker Pro on one computer. Click on "File," then click "Data File Status" and make a note of the location of the Data File Path at the bottom. This is the location of the ".df1" file holding your data. You will need this location for Step 5.
3. Click on "File," then click "Campagne Modules," then "Pro Utilities."
4. Choose the "Pro_Uilities.lbr" file for your version of GiftMakerPro (for example, c:\Campagne\Pro_Uilities\Pro_Uilities_84.lbr for version 8.4)
5. Enter the Data File Path in Step 2 when prompted.
6. Click on "File," then "Datafile/Migration Menu" which will put this option on your menu bar."
7. Click on "Datafile/Migration" from the menu bar.
8. Click "Export All Records."
9. Click "Yes," then "Yes" to the next message telling you the number of text files to be created.

The export will create a number of text files (.txt) in the location of your ".df1" file you found in step 2. Please send all the files for your price quote.
