

Q&A and SNAP! for DOS Data Files

To convert data from Q&A or SNAP! for DOS to PastPerfect, we need the following files:

CATALOG.DTF
CATALOG.IDX

Also, we will need your USERNAME / PASSWORD combination if you have one.

There are five other data sets, but in many cases they are not used or do not exist. However, if you have these files, please send them as well:

ASSNS.DTF
ASSNS.IDX
CONSHIST.DTF
CONSHIST.IDX
LOCHIST.DTF
LOCHIST.IDX
PUBS.DTF
PUBS.IDX
REFS.DTF
REFS.IDX

All of the above files will be located in your Q&A folders on your C drive.
