

PastPerfect-Online

PastPerfect-Online is the fast, affordable, secure and easy way to create a fully searchable online catalog from your PastPerfect collections!

PastPerfect-Online (PPO) is capable of storing and efficiently searching tens of thousands of collection items. Your visitors will find searching your collection is straightforward using the familiar research tools such as keyword search, advanced search by categories, random images and “click & search.” PPO also allows your visitors to send feedback, links to friends, and image copy requests through automated Web-based emails.

PPO is both a wizard that enables you to select the PastPerfect catalog records, data fields, and images you want to publish, and a hosting service. PPO comes with a free splash page, customizable Web-based email forms, monthly visitor search statistics, and design options for customization of your site.

PastPerfect-Online is safe. Only the records and fields you select are published, and your online images can be watermarked without affecting images attached to PastPerfect records. No Web design or programming expertise is needed to give your museum a world-class online presence.

	Standard Price	AASLH Price
