

Multi-Media for PASTPERFECT

They say a picture is worth a thousand words. If so, a video clip with audio is priceless!

Adding the Multi-Media option to PastPerfect gives you the power to attach and display audio files, video clips, digital images, MS-Word documents, Excel spreadsheets, PDFs, and URL web links to catalog records.

Now you can capture multiple digital images, sounds, moving images, transcripts, reports, documents and spreadsheets in your PastPerfect records. Scanning your organization's documents and photographs or attaching a transcript into PastPerfect diminishes the need for handling, and helps you preserve your community's historic resources.

Additionally, you can capture digital images of exhibits, items within an accession, and individuals associated with your organization, including volunteers, donors, members, etc. These images can be printed on reports, labels, and membership cards.

AASLH Institutional Members save 20%!

Our Wizard makes attaching and using digital images and multi-media links easy.

PastPerfect's exclusive imaging interface allows you to acquire images directly from a scanner or digital camera. You can also import images from existing files and enhance all of your images with PastPerfect's image controls.

- ◆ Scan and attach high resolution images and automatically create low resolution discovery images
- ◆ Modify images with crop, hue, contrast and rotation functions
- ◆ Watermark your images for copyright protection
- ◆ Capture metadata and display EXIF image information
- ◆ Discover image details with zoom functions
- ◆ Attach any file type and up to 999 digital images to each catalog record

Image Storage

Images can be stored on your hard disk or network file server. Using compressed formats such as JPEG, you can store as many as 50,000 images on five gigabytes of hard drive space.

Software Requirements and Pricing

The Multi-Media Upgrade is available for PastPerfect Version 4.0 only. It is priced at \$370 or \$296 for AASLH Institutional Members.
